WHAT TO KNOW TO SOUND LIKE YOU’VE READ THE BOOK

Many years have passed since David Ponder discovered the Seven Decisions during a divine journey through time. Now 74 years old, Ponder has lost the one thing that mattered to him most—his wife, Ellen. Despite his personal and professional success, he now sits alone at the top of his 55-story high-rise contemplating the unthinkable, just as he did 28 years ago.

However, just as things are looking their darkest, Ponder is informed through divine channels that he is needed now more than ever. This is mankind’s last chance. Millennia of avarice, pride, and hate have sent humanity hurtling toward inevitable disaster,

and far from its original purpose. There is only one solution that can reset the compass and right the ship—and it is only two words. Ponder, along with a cast of famous historical figures, must work quickly to discover this solution. The fate of the world rests on their shoulders.

In the spirit of its *New York Times* bestselling predecessor, *The Traveler’s Gift*, *The Final Summit* explores the historically proven principles that have guided our greatest leaders for centuries. Andrews combines a riveting narrative with as-

tounding history in order to show us the one thing we must do . . . when we don’t know what to do.

INTERVIEW TOPICS

What to Do When You Don’t Know What to Do, Taking Charge of Your Life

We all struggle with periods of inactivity—the times when we throw our hands up and think that there is absolutely nothing left for us to do in order to take back control over our lives. Andy Andrews reveals and explores the one principle that keeps us moving forward, even during the toughest times.

The Quest for Wisdom, Searching for Truth

In the modern world, little is more important, yet harder to find, than absolute truth. People have become dependent on the guidance of societal norms, which rarely lead to the truth. Andy Andrews shows how a search not for wisdom, but of wisdom, will lead us to powerful truths.

The Black Dog, Dealing with the Darkness Within

Millions of people battle feelings of depression and despair every day of their lives. It follows them around like a lurking black dog, not always necessarily in sight, but always nearby. Though it may be tempting, people must resist feeding their black dog, for the more it is fed, the closer it is to their own throat. Andy Andrews demonstrates what must be done to starve the black dog and escape its claim on our lives.
